

21ST ANNUAL MTA FLY FISHING EXPEDITION

Monday, August 23, 2021

Meet in the lobby of the Summit Lodge by 9am.

Lunch and beverages provided.

Fishing license & Equipment

If you don't have a license, you'll need one. Please obtain your license before Monday, 8/23, so we don't have to waste time tracking down licenses on our way to the stream. You may obtain one online at: fwp.mt.gov/buyandapply/fishinglicenses

If you need equipment (i.e., rods, reels), and did not complete that section on the registration form (\$35 rent), let me know so I can order the necessary equipment for you.

MONTANA
TELECOMMUNICATIONS
ASSOCIATION

Please Bring:

- Water shoes (Tevaz will do; something that fits tightly and won't fall off your feet if you slip on a rock or cross swift current).
- Water pants (something you don't mind getting wet. Quick dry stuff helps, but isn't necessary.) If you have waders, that's fine too.
- Polarized sunglasses (essential; it's really glary out there if the sun's out—a high likelihood in Montana in August).
- As for the other essentials (flies and cigars); I will have plenty of both and also will have sun block and bug spray. The latter probably isn't necessary; but the former is good to have.

No experience necessary!

You'll have plenty of help learning to cast and read the water. We've had many beginners catch fish on their first day at MTA's Annual Meeting. (Now, if I could only figure out how they did that...)
